

FOUNDATION PHASE

English Home Language

It is our aim to teach more than just the content. As a department, we aim to enrich the learners with exposure to a diverse range of material; thus, aiding in creating a balanced individual who is able to cope intellectually, socially and emotionally once they leave the secondary education phase.

The English Department staff are heavily involved in all aspects of Drama, Eisteddfod and Public Speaking.

In addition, Department members are proactive and well-versed in educational issues.

Afrikaans

The aim of teaching Afrikaans is to improve the language skills of our learners. This will help to improve their knowledge, insight and understanding and use of the language.

Mathematics

We are very fortunate to have an excellent, enthusiastic team of Mathematics teachers at Royal Schools. Our goal is to motivate the learners to enjoy Mathematics and to find it logical, interesting and challenging. Mathematics classes are very interactive so that we stimulate learner understanding.

All of our classrooms have been equipped with data projectors and computers to encourage teaching of Mathematics using methods that allow learners to learn in a stimulation-rich manner.

Life Skills

This subject focuses on equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country. This subject promotes social cohesion, tolerance and ubuntu.
